Full Stack Developer | Webflow Developer | AI Chatbot Developer

Portfolio: <https://samson-carlos.vercel.app/>

Professional Summary:

Full Stack Developer with experience building production-ready websites, custom CMS platforms, applicant management systems, and AI-powered applications. Skilled in Next.js, React, Node.js, Python, and modern database technologies. Passionate about developing scalable solutions that improve business operations and user experience.

Skills

Frontend: React.js, Next.js, JavaScript, TypeScript, Tailwind CSS, HTML/CSS, Responsive Design, SEO

Backend: Node.js, Express.js, Python, Streamlit, REST APIs, API Integration, RBAC, SSR

Database & Cloud: PostgreSQL, MySQL, MongoDB, Prisma ORM, Supabase, Vercel

AI & Automation: OpenAI, Groq, AI Chatbots, RAG, Prompt Engineering, Embeddings, Google Sheets Automation

Tools: WordPress, Payload CMS, Webflow, Git/GitHub, Postman

Experience:

Full Stack Web Developer

STATE101 Visa Assistance Consultancy – Pasig

March 2024 – April 2026

- Led the development of the company's public-facing website, custom CMS, and administrative dashboard using Next.js, React, Prisma, PostgreSQL, and Supabase.
- Built a centralized applicant management system supporting 50+ visa applications per week and streamlining application review workflows.
- Implemented role-based access control (RBAC) for 15 internal users, including 5 administrators and 10 content editors.
- Developed editable content and branding modules across 4 website pages, enabling non-technical staff to manage updates independently.
- Implemented media management, audit logging, and rich text editing features to improve operational efficiency and content governance.
- Supported a website receiving approximately 300+ monthly visitors while maintaining performance, reliability, and scalability through Vercel deployments.

Tech Stack: Next.js, React, TypeScript, Prisma, PostgreSQL, Supabase, Tailwind CSS, Vercel, REST APIs

Freelance Web Developer

Lindela Travel and Tours (Remote Contract)

March 2025 – June 2025

- Designed, developed, and deployed a responsive travel services website showcasing tours, flights, and visa assistance offerings.
- Improved site structure, navigation, and mobile responsiveness to create a more intuitive user experience across devices.
- Contributed to an estimated 70% increase in website visits and customer inquiries following the website launch.
- Collaborated directly with stakeholders to translate business requirements into a production-ready web solution.

Live Site: <https://lindelatravel.com/>

Tech Stack: Next.js, React, TypeScript, Tailwind CSS

Software Developer Intern

ExxonMobil Philippines (Remote Internship)

February 2022 – February 2024

- Contributed to the development of an information and inquiry platform with AI chatbot capabilities.

Built Streamlit-based interfaces to support interactive user workflows.

Integrated APIs and developed backend functionality using Python.

Assisted with debugging, testing, and feature enhancements in a collaborative remote environment.

Tech Stack: Python, Streamlit, APIs, Git

Projects

Travel & Visa AI Assistant Platform

2025

- Developed an AI-powered customer support platform capable of handling travel and visa-related inquiries through natural language interactions.
- Processed approximately 60–100 customer inquiries per week during deployment, reducing manual response workload.
- Integrated LLM APIs to provide intelligent search, contextual responses, and automated assistance workflows.
- Connected cloud-based data systems using Google Sheets APIs to support dynamic content and administrative operations.
- Built responsive user interfaces and backend services using Python and Streamlit for rapid deployment and maintenance.

Tech Stack: Python, Streamlit, OpenAI/Groq APIs, Embedding Models, Google Sheets API, GitHub

Education

Bachelor of Science in Information Technology

STI College Ortigas-Cainta

2022 – 2026 (Expected Graduation: 2026)
